Dear Ms. Arndt,

As we come to the end of our project here at Georgia Gwinnett I just wanted to take some time and write to let you know how much we appreciate your work on the new Library and Learning Center.

Your collaboration with the Leo A Daly firm in designing the interiors has been very successful for us as we now have a building with which everyone is so very pleased. I wish you could have been on site for our official opening day. If you could have seen the students delight as they went from floor to floor, admiring all of the colors, the finishes and furnishings. I knew I was very happy with the work but to see the students so excited about it was validating.

In addition to your creative vision I would also like to praise your business ability. Your vast experience in working with state contract vendors was a huge plus in seeing this project through. Also your skill in managing such a large FF&E budget and getting some amazing pieces in place only attests to this ability.

Again, I say thank you for a job well done and I would highly recommend your design services to anyone. I would most definitely welcome an opportunity to work with you on projects in the future.

Sincerely,

Joy G. Bolt
Head of Outreach and Assessment
